

GENERAL CATALOG

# Create Unique Concepts

Range of quality machines; with a recognisable design line; capable of adapting to different products, markets and trends; and responding to the new needs of our customers.

Which has the **vertical ventilation** as its first vertebral element, allowing maximum use of the working space)

## ○ EXTENDED FAMILY FEELING

We present you with a **homogeneous design** throughout our entire line to make it easier to work with different machines.

The machines have many parts in common, the working and cleaning procedures are similar so the **effort, time and learning curve is reduced to a minimum.**

Reduce the number of references to manage in your spare parts stock.

## Quality

Their clean, sleek lines, lighting and customisation options make them an **eye-catcher** and increase the perceived value of the product to consumers. Perfect for preparing FROZEN COCKTAILS

## Versatility

Thanks to the electronic consistency control, prepare a variety of products you would never have imagined, such as natural fruit slushies or smoothies. Create **new lines of business** and expand your market

## Design

The absence of separation between machines allows you to create designs of **higher quality and impact** on machines. Extended Family Feeling brings harmony and order to a stimulating environment.
