## The beauty of Cristal Tower

Transparency, display potential, food appeal, performance: Cristal Tower is a jewel of design and technology for your store. Cristal Tower captures the attention of your customers and entices them to buy your works of art.

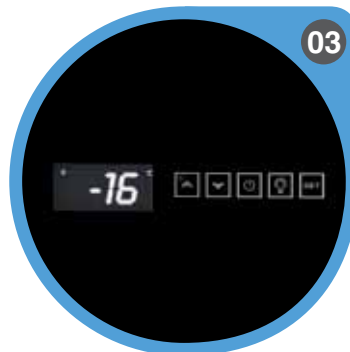

### 01/ Door opening device with TOUCH PAD system directly on the glass

**One touch and your world becomes a reality.**  
Touching the opening button, the green lights light up one after the other and the door opens automatically (door without handle)

### 02/ Glass base shelf with LED lighting

**To capture the attention of your customers.**  
Another light source to further increase the display power of your Cristal Tower (except model TB)

### 03/ Touch Technology

**A simple, fast and intuitive way to adjust Cristal Tower.**  
You just need to touch the icons screen-printed on the glass front panel

## CRISTAL TOWER

### Perfection has nothing to hide

Cristal Tower breaks down barriers between customers and products and allows you to display them fully, even if the size of your store is small.

### Attractive design

Forms to be admired, lines that win at first glance. Body sculpted to perfection that is unmatched in the market of fashion and beauty. The beauty of being Cristal Tower

### Upright structure of steel

To ensure solidity and sturdiness without compromising the inimitable elegance that distinguishes all ISA products.

### Low noise

Not an option but fundamental, a pleasure indispensable for a jewel that embellishes the most sophisticated environments and impresses the most demanding customers.

### Incomparable display capacity

Spectacular display space with maximum visibility from every direction: the products on display have no more secrets, are always the centre of attention and catches the eye of the customer.

### Flexibility

More space, more solutions, more load capacity. Total freedom to place and display any type of product for every occasion.

### LED Lighting

A new concept in lighting: it does not heat the interior environment and enables a perfect preservation and exhibition of all the organoleptic characteristics of the product.

### Automatic door closing

After opening the system automatically invokes the self-closing mechanism and closes the door gently.

## Sweet vision

The technology and design of Cristal Tower are designed to give the displayed products higher levels of visibility and food appeal. Everything is visible

Cristal Tower is available in four versions

**RV TB/TN/** ventilated showcase, dual temperature  $-18^{\circ}\text{C}/+10^{\circ}\text{C}$ , adjustable for negative and positive temperatures, ideal for ice cream cakes, ice cream, chilled desserts and pastry products

**RS TB/** static showcase, negative temperature  $-15^{\circ}\text{C}/-18^{\circ}\text{C}$ , ideal for chilled desserts, ice cream and ice cream cakes

**RV TN/** ventilated showcase, positive temperature  $+1^{\circ}\text{C}/+10^{\circ}\text{C}$ , ideal for pastry products

**RV CH/** ventilated showcase with relative humidity control, positive temperature  $+14^{\circ}\text{C}/+16^{\circ}\text{C}$ , ideal for chocolate and pralines products

\*optional

## The two formats of Cristal Tower

Cristal Tower is available as models 925 and 725

The range of Cristal Tower has five shelves of perfect visibility, one piece structure with ecological polyurethane insulation with low environmental impact, optimum illumination thanks to Strip LED technology, high efficiency even with frequent door openings, automatic hot gas defrost.

In the ventilated version tempered glass shelves adjustable in height, with the possibility of loading up to 25 kg per shelf.

Cristal Tower is ideal for the display and sales of chilled desserts, ice cream and ice cream cakes, pastries, praline and chocolate.

MODEL 925

MODEL 725

## Specifications common to all models

Display space completely in glass for maximum product visibility on all four sides. / Refrigerant R404A / Front control panel with Touch Pad system, with electronic control with alarms high/low temperature, open door / On/Off Touch lighting switch / On/Off Touch Main Switch / Refrigeration system allows excellent temperature maintenance also in the case of many door openings. / Climate Class 4 (+30 ° C/55% RH) / One piece structure with ecological polyurethane insulation (HCFCs, CFC, HFC free) foamed with CO2 with low environmental impact / Completely replaceable tempered glass structure / Tempered double glass door screen in line with profile / Handle opening on the standard version / Complete access to the condensing unit from the front and from the rear thanks to the easy removal of the lower panels / Self-closing door / Double pivoting wheels (two with brakes) for easy handling / Optional: Door opening device with Touch Pad system directly on the glass (door without handle)

### RV TB/TN

#### Ventilated showcase, dual temperature -18°C/+10°C, adjustable for negative and positive temperature, ideal for ice cream cakes, ice cream, chilled desserts and pastry products

- Automatic hot gas defrost
- Optimum illumination of displayed product thanks to the four energy-efficient LED Strip lights (two front, two rear)
- No. 5 tempered glass shelves adjustable in height, with possibility of 25kg load per shelf
- Optional: Glass bottom shelf with LED lighting

### RS TB

#### Static showcase, negative temperature -15°C/-18°C, ideal for chilled desserts, ice cream and ice cream cakes

- Manual defrost
- Internal base with drain plug for defrosted ice
- 5 refrigerated shelves
- Lighting of displayed product with two energy-efficient LED Strip, positioned on the front

### RV TN

#### Ventilated showcase, positive temperature +1°C/+10°C, ideal for pastry products

- Automatic compressor stop defrost
- Optimum illumination of displayed product thanks to the four energy-efficient LED Strip lights (two front, two rear)
- No. 5 tempered glass shelves adjustable in height, with possibility of 25kg load per shelf
- Optional: Glass bottom shelf with LED lighting

### RV CH

#### Ventilated showcase with relative humidity control, positive temperature +14°C/+16°C, ideal for chocolate and pralines products

- Automatic compressor stop defrost
- Optimum illumination of displayed product thanks to the four energy-efficient LED Strip lights (two front, two rear)
- No. 5 tempered glass shelves adjustable in height, with possibility of 25kg load per shelf
- Optional: Glass bottom shelf with LED lighting
