SM-5300

PC Based System Scale Printer

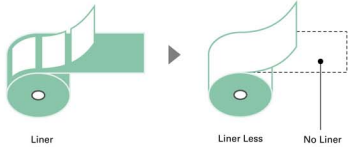
Economy, Efficiency And Eco-Friendly

SM-5300P

Searching for a New Balance

Liner Less Labeling

The SM-5300 offers the liner less functionality that reduces waste, downtime and improve productivity.



Economical, Efficient & Eco-Friendly

Without the liner, the number of labels per roll will be increased significantly. Operational period is lengthened with few pauses for label changing downtime.

- Reduce Label Wastage
- Eco-Friendly
- Increase Operation Efficiency

One Label Fits All

Only 1 type of label is required since our printer automatically detects the label size required to suit different needs. This reduces the storage space as well as logistic cost.

World's First Auto-Cutter Weigh Labeller

The world's first weigh-labeller with built-in auto-cutter ensures a smooth cut even after long term use. The SM-5300 prints labels of variable lengths and sizes from a single roll of label.

World 1st

- Attractive Label
- Reduce Label Cost
- Reduce Logistic Cost

Remote Diagnostic Functions

Remote diagnostic and troubleshooting capabilities allow users to monitor scale performance remotely without compromising the down time by sending technician to site.

This in turn translates to time and cost saving to the customer.

InfoTag Electronic Signage

Promotional messages, product information and pricing can be displayed on the InfoTag through easy connection with SM-5300 via a wireless base station.

- Wireless Update
- Price Integrity
- Minimum Human Intervention

Scale Management Application

Our scale management application makes it easy to manage Price Look-Up (PLU) data and preset key allocation from a centralised location.

Reduce time spent to check individual scale status as status update is just a few clicks away.

Traceability, Security & Networking Capabilities

Protection from unauthorised manipulation and access is taken care by features such as:

- Audit Trail
- Date and Time Stamp
- Price Override Lock
- Password Protection
- Wireless Network Security (WPA / WEP / LEAP)

The supported network interfaces provide the option of connection via:

- Ethernet 10/100 Based T(TCP / IP)
- Wireless LAN IEEE.802.11 a / b / g / n

Interactive Customer Display

The SM-5300 comes with a 7" WVGA customer display that is capable to show effective advertisement to boost sales.
